

## PRINCE DINES WITH ONE HUNDRED PROMINENT MEN.

**MISS ELLEN STONE AND HER COMPANION ARE RELEASED.**

**STATE DEPARTMENT RECEIVES POSITIVE INFORMATION THAT THE MISSIONARY HAS BEEN GIVEN HER FREEDOM.**

WASHINGTON, Feb. 26.—The State Department to day received a cablegram from Minister Leishman at Constantinople containing the first official announcement it has had of Miss Stone's release.

SALONICA, (Roumania) Feb. 26.—Miss Ellen M. Stone and Mme. Tsilka will start without delay for Constantinople.

In the meanwhile the liberated missionaries are staying at the Missionary headquarters, where they are receiving the congratulations of their colleagues.

**MRS. ROWLEY SAYS SHE WAS ATTACKED BY UNKNOWN MAN.**

Mrs. Mary Rowley, mistress of California Hall, who lives on the upper floor of that building, was attacked at the entrance of Macabean Hall on Elyen street, near Clay, at 11 o'clock last evening, by an unknown man. According to Mrs. Rowley, the man made an effort to catch her, but she eluded him and ran around the corner to her home. He followed her to the entrance of California Hall, but did not enter the building. She had with her at the time a purse containing \$5 in gold and greenbacks and she thinks that it was to rob her that the attack was made.

"I have charge of both Macabean Hall and California Hall," said Mrs. Rowley this morning, "and Monday night, when the Macabeans finished their meeting, I went to the entrance of their hall to extinguish the light. I noticed a desparate looking man standing in the doorway of the Merchants' Express Company. The man was tall and dark and wore a derby hat and a black suit of clothes. I noticed the man particularly, as he was a hard looking character."

"Last night I was again compelled to put out the light and, remembering the man of the night before, I was cautious. I walked near the curb to avoid him if he should be in the doorway and my precaution, I think, saved me my money. As I passed the doorway the man sprang at me, but did not catch me. I ran as fast as possible and he followed close upon my heels. He stopped at the doorway, however, and I continued up the stairs, fainting when I reached my room. My son-in-law, Frank Prett, went in search of my assailant, and he had first to go to his saloon on Eleventh street for a pistol. When he returned the man was nowhere in sight. I believe that robbery was the motive of the attack."

Mrs. Rowley's ankle was severely sprained in her flight.

When asked why she had not reported the attack to the police Mrs. Rowley said it would have done no good. The police, on the other hand, are inclined not to lay too much credence on her story that her assailant was a strange man. They recall that George Rowley, whom they believe to be her son, has served a term in San Quentin, and they offer as a possible theory, that young Rowley, or one of his friends, may have tried to secure the old woman's gold in that manner. Mrs. Rowley says her son, who works for the Telephone Company, telephoned her from Livermore Monday night that he was repairing lines at that place, and has not returned, but the police say the telephone message may have been a ruse to decoy her.

"I have not seen Rowley for the last two days," said Detective Kyte, "but we can't be certain where he has been."

Chief of Police Hodgkins stated that the matter would be thoroughly investigated.

**GREAT HUGO CELEBRATION IN PARIS.**

PARIS, Feb. 26.—The series of festivities to celebrate the centenary of the birth of Victor Hugo, which will last until Sunday next, opened this morning with a grand ceremony within the Pantheon under the auspices of the government.

President Loubet, M. Waldeck-Rousseau, the Premier, and the other members of the Cabinet, the members of the Senate and the Chamber of Deputies were present. President Loubet was warmly cheered along the route as he drove to the Pantheon escorted by a squadron of cuirassiers.

The President and the Cabinet Ministers took their seats in the official tribune erected in the chair, while in the seats beneath the dome were two other tribunes, one to the right reserved for Mrs. Loubet and the wives of the ministers, and the other to the left on which the members of Victor Hugo's family were seated. The Uni-

ted States Ambassador, General Porter, sat in the front row of seats set apart for the diplomatic corps.

Exactly beneath the center of the dome stood the bust of Victor Hugo by the celebrated sculptor, David D'Angers, and this was the symbol to which the eyes of the thousands of spectators assembled within the Pantheon were directed. A few yards behind the bust was a small platform, from which the artists of the Comédie-Française recited verses from the poet's works. Tributes for the Senators, Deputies, Academicians, and the other principal guests were ranged around the nave, about 5,000 persons in all being present. A privileged position between the bust and the front of the President's box was reserved for about ninety young men and girls selected from various schools to typify the youth of France.

The scene within the Pantheon was most brilliant and full color, owing to the brilliant lighting of the glass in the uniforms of the officials. In all the public schools of France the day will be celebrated by lectures on the life of France's national poet and by readings from his works.

**MORRISON'S GREAT BOOK AUCTION.**

We have got to stop. Our time is nearly up here. After selling over twenty tons of books in Oakland, we want to notify our old customers and as many new ones as care to come, that the Greatest Book Sale that ever took place in this city is near its end. Only a few days more. Don't put off any longer buying the books you want. Over a thousand people attended our sale Saturday evening and many went away with both arms full of books, and you are invited to do likewise.

Respectfully yours,

**W. C. MORRISON**  
1065 BROADWAY

America's Greatest Book Auctioneer.

WASHINGTON, Feb. 26.—Following is a copy of a cablegram sent to the German Emperor yesterday from New York by Miss Roosevelt: "His Majesty, the Emperor, Berlin."

"The Meteor has been successfully launched. Congratulate you and I thank you for your courtesy to me and send you my best wishes." —Alice Lee Roosevelt.

**PRINCE MEETS ONE HUNDRED AT LUNCHEON.**

NEW YORK, Feb. 26.—Prince Henry of Prussia, remained on board the yacht Hohenzollern this morning, visiting the Tomb of Grant, which the Prince had intended to make early in the day was postponed because the wreaths to be placed on the sarcophagus were not finished in time.

**LUNCHEON AT SHERRY'S.**

This was to be a quiet day for the Prince compared with the night of the bad yesterday. After resting on board the yacht Hohenzollern this morning the program was for him to go to Sherry's to be entertained at a luncheon to which 100 men from different parts of the United States prominent in commerce, industry and finance had been invited.

This luncheon, it was expected, would take up the Prince's time until 3:30 p.m. when it was his intention to go for a sightseeing trip about New York city.

**EVENING PROGRAM.**

The evening program included a

her own round on the score of past favors.

TINGE OF JEALOUSY

IN ENGLISH PRESS.

LONDON, Feb. 26.—A tinge of jealousy is observable in the comments of the morning papers on the subject of Prince Henry's visit.

The Daily Chronicle suggests that the remembrance of the attitude of Admiral von Diederichs in Manila bay may account for the language used in the general public in the United States.

The Standard finds nothing remarkable in the proceedings, but thinks it will be found that Germany and the United States are really better friends for the visit of Prince Henry.

The Morning Post says:

"It is not given to every one to win popularity in America, but Prince Henry conquered at once."

**GERMAN PEOPLE CHEER THE AMERICAN FLAG.**

BERLIN, Feb. 26.—All day long crowds strolled at the portraits of President Roosevelt and Prince Henry which hung side by side in the lobby of a newspaper office in Unter den Linden. This crowd was so dense that the police had to clear the way for traffic.

Emperor William, who, with the Empress, drove by the newspaper offices during the afternoon, noticed the portraits and saluted a small American flag which was flying.

Upon perceiving this the assemblage applauded.

The Germans are slowly working up to animation over the reception in the United States of Prince Henry, showing a growing fondness toward America.

Newspapers that never before received special cables from the United States are now publishing such messages.

One editor writes that the German press would be without distinction this year and expressed the hope that nothing else of equal interest would happen on the other side of the Atlantic for five years to come.

All the correspondents in the United States of the German newspapers agree upon the warmth of the reception to Prince Henry.

**W. A. BOOLE DIES AT A PRIVATE SANITARIUM.**

**HE WAS THE FOUNDER OF THE GREAT SHIPYARDS AT THE FOOT OF ADELINE STREET THAT BEAR HIS NAME.**

The flag is floating at half mast over the shipyard of W. A. Boole & Son, at Adeline street.

This is in melancholy token of the death of W. A. Boole, the senior member of the big shipbuilding firm and founder of the yard. Mr. Boole passed away at Dr. Maxson's Sanitarium shortly before midnight last night. He had been under treatment there for sometime past.

Mr. Boole's decease closes a long and successful life full of activity and enterprise. The illness which culminated in his death was not of long duration, but he has been in feeble health for months past. He was wrapped up in the success of the shipyard which he founded about two years ago and devoted close personal attention to building up the business. As it grew and expanded his interest became keener, and his friends think his arduous labors of the past two years hastened his end, for he was visibly failing for sometime past, although he was a man of rugged constitution.

About four years ago he was badly injured in a machinery accident, and never entirely recovered. A few months ago he was again injured in a runaway accident. Since that time his health has steadily declined.

William A. Boole was born in Shelburne, Nova Scotia, 71 years ago. When quite young he removed to Boston and there learned the trade of carpenter. In 1859 he came to California, and ever afterward made his home in San Francisco and vicinity, although he did some shipbuilding and repairing on Puget Sound. For many years he was a member of the shipbuilding firm of Boole & Mittimus. A little over two years ago he conceived the project of establishing an extensive shipyard with all modern facilities in Oakland. Strong inducements were held out to him to locate his yard in San Francisco, but Mr. Boole knew his business far better than his neighbors and he located it where it now stands. He equipped the yard with suitable shops and a marine railway, and began building ships on a more extensive scale than had hitherto been attempted on this side of the bay. The yard was successful from the start, being crowded with work ever since it opened. The largest wooden ship ever built on San Fran-

cisco Bay was launched from this yard which from the first took a leading position. Much Government work in the shape of cleaning and repairing has been done at the yard which has rapidly grown into a big institution.

All this filled Mr. Boole with pride and interest and absorbed his attention to the exclusion of thoughts about his health. Among business men his reputation was very high, for he prided himself on living up to the letter of his contracts and of meeting his engagements on time. This trait was well known among shipping men that gave him preference in letting contracts for repairing and refitting vessels.

Mr. Boole leaves a widow and four

(Continued on Page Two.)

**CHOICE AUCTION SALE.**

Of the extra fine furniture, piano, matings, rugs, chinaware, etc., of Mr. W. C. Rarig, 137 Weber street, near Central Avenue at Encinal station, narrow gauge, Alameda. Sale Friday, February 28, at 10:30 A. M. Comprising in part:

# TOWN ELECTION WILL BE LIVELY

POLITICIANS OF HAYWARDS  
ARE READY FOR A  
FIERCE CONTEST.

HAYWARDS, Feb. 26.—The local political factions are organizing for the coming town election, which will take place in about a month. Lively times are promised, as a number of tempting offices will be vacated, on account of expired terms. There will be two Trustees to go out of office—Trustees Crosby and Powell. The terms of the Town Clerk, Treasurer and Marshal will also expire.

Candidates for these various positions are slow about showing their hands. They are all holding off and when approached on the matter will neither deny nor affirm the reports that are being circulated.

Neither Crosby nor Powell are anxious to be re-elected, but their friends are trying to prevail upon them to get in the fight. The following have been mentioned as possible candidates for the vacancies on the Board of Trustees: G. T. Tovey, T. S. Lee and T. H. Martin. Mr. Martin says he will not deny that he is a candidate, and neither will he affirm the rumor.

The position of Marshal seems to be the most quiet fight of the campaign. Marshall Ramage has announced that he will again be in line for re-election, and the news has thrown out written and printed notices to the contrary.

Marshal Ramage is quite popular, and to walk away from his star would require some hard work.

Ed. Hall will be in line to succeed him, as well as others, and may be opposed by A. E. Fischer.

John Obermiller's office, that of Town Clerk, promises to furnish an endless amount of strife. Obermiller will try for re-election. F. P. McLean and Cary, the Board hopes in this manner to bring San Leandro and vicinity before the Eastern travelers. In such a manner as to leave the best impression and possibly entice people to remain here.

The matter will be brought before the Board at the next meeting.

**FIGHT IN THE STREET.**

Yesterday at noon A. Whelton, real estate agent and harness dealer, and A. G. Terra, farmer met in front of Whelton's, which is located near the corner where the fight was declared off. Whelton was the possessor of an eye which was badly discolored, while Terra was fortunate enough to escape with a few scratches.

Terra was armed with an umbrella and a stick.

Both were young men and had been in the newspaper business in Haywards for the last ten years.

**THE HORSE FAIR.**

Secretary Oakes of the Board of Directors, who have in charge the coming horse fair, prepared 500 invitations which will be sent to all the horsemen in Alameda county. There will also be a number of invitations forwarded to prominent horse owners all over the State.

The invitation announced the greatest horse show given in Alameda county for many years will be held in Haywards.

The show will be held on a principal street and during the afternoon a part of the fair will take place. The different committees have reported everything in readiness for this, the event of the year, and the only blot on the program is the possibility of a rain.

The present state of affairs presents signs of hope and in all probability the day will be all that can be desired.

**PERSONAL NOTES.**

Rev. A. E. Johnson and family have returned from their trip through the South. They report having had a most enjoyable time.

Ed. McKinney, who is now employed at Crystal Lake with the Spring Valley Water Company, was in town several days ago.

Ed. Frost of Oakland was in Haywards several weeks ago.

Rev. and Mrs. W. Lyons returned to their home in this place after a several weeks' trip through the northern part of the State.

**W. A. BOOLE DIED IN PRIVATE SANITARIUM**

(Continued from Page 1)

children. His son W. A. Boole Jr. is a member of the shipbuilding firm, Mrs. J. D. McKee, Mrs. Winfield S. Davis and Mrs. Arthur E. Wellington are his daughters.

George Lund of Fruitvale has been appointed Postmaster by President Roosevelt. Mr. Lund received his commission yesterday and it was dated from January 15th.

**WON HIS SUIT.**

Yesterday Judge Ogden of the Superior Court heard arguments for the plaintiff in the action of W. E. Rudell vs. Slaghter. Both parties to the action are residents of this place. The action was brought by Rudell to secure \$20 loaned by him to the defendant. The action was brought by Rudell to collect the sum where Rudell was given judgment. The defendant appealed the case to the higher court and lost again.

**ATTACKED AN OFFICER.**

Thomas Brennan, who fiercely attacked Patrolman John Murray, while the latter was arresting two beggars, pleaded guilty to interfering with an officer this morning and will be sentenced tomorrow. Yesterday Brennan pleaded guilty to using vulgar language and was sent to jail for ten days.

**DO NOT SUFFER**

any longer from stomach, liver and bowel complaints, when Hostetter's Stomach Bitters will cure you. Get a bottle today and be convinced. It will bring health to every sufferer. Try it for dyspepsia, indigestion, constipation, nervousness or insomnia, and you will not be disappointed. The genuine must have our private stamp over the neck of the bottle.

**HOSTETTER'S STOMACH BITTERS.**

Mrs. M. Woodring of Yuba City is visiting at the home of Mr. and Mrs. Fisher of Moss Avenue.

Captain M. P. Fulton and wife, who have been spending the winter with the Englebert family, have returned to St. Louis.

Mrs. W. M. McCreedy was visiting in San Francisco several days ago.

**BRANCH HOSPITAL IS READY FOR PATIENTS**

ELMHURST, Feb. 25.—Mrs. W. E. Harrington and Mrs. Henry Payot, directors of the "Little Jim" Hospital of San Francisco, were in Elmhurst several days ago on business connected with the proposed improvements to be made on the local branch of the hospital. The place will be built throughout, a new barn built and a windmill and tank house constructed. In the early spring the first installment of little patients from the main hospital in San Francisco will be brought to this place, and during the entire summer the place will be occupied.

**PERSONALS.**

It is my opinion that the officer should have used a little more judgment and should have taken the dog to a more quiet place before shooting him, the busy location and the hard bituminous pavement making accidents liable."

**DANIELS' SUCCESSOR.**

WASINGTON, Feb. 26.—The President has decided to appoint Myron McCord, a former member of the House of Representatives from Wisconsin, a Marshal of Wisconsin in place of B. F. Daniels, whose commission was recently revoked.

ATTORNEY ON THE STAND.

"Yes, and my husband was very much pleased to have me join it."

"It was then decided to put Naylor on the stand so as to enable him to attend to clients in San Francisco. The purpose was to give him the affair which otherwise would have to be testified to by the plaintiff's attorney."

Before she left the stand, and when she felt that she was about to be cross-examined by Mr. Naylor, witness said:

"I am not going to say anything against my husband on the witness stand. I have made up my mind that I shall say nothing against him at all."

Witness was then temporarily excused.

When she returned to the stand, her memory was defective. Robinson thereupon stated that he would be obliged to act as a witness himself.

Recess till 2 o'clock.

The TELEGRAMS.

"I will not offer the telegrams referred to, one of which was read, to the effect that a perfect reconciliation had taken place between Simons and the plaintiff."

On objection of Mr. Naylor, the telegrams were ruled out on the ground that the proper ground for their introduction had not been laid.

Simons then continued to detail a few events which transpired the next day.

"My husband," she said, "left for San Francisco in the morning. It was agreed that he would go to the office of the attorney at the firm of Powers, Powers and Powers at the office. I was to go with him and withdraw the filing of the homestead. I went to meet my husband, but my husband did not come. He met him where he promised to be," inquired Judge Hall.

"No, I did not," was the reply. He kept away from me later and said that he would not live with me."

I next saw Mr. Simons January 2, 1901.

Defendant's counsel said he had been advised and desired to recall young Diana.

Plaintiff's attorney objected, but the question was granted.

**GROUND FOR A DIVORCE.**

Beaman was asked if Naylor had told him how the divorce was to be procured. The objection was overruled and witness replied:

"Mr. Naylor said that Simons had looked for the ground for a divorce in California and that he had discovered that it could be got on the ground of extreme cruelty and that there need not be much loss of it in the papers. Naylor told me that Mr. Simons had been married since his previous marriage and that he had wanted to get a divorce from me. I went to Mr. Naylor and asked him if my mother wanted to get a divorce from me?"

"What did Naylor say to you?"

Objection was made and the objection was sustained.

I next saw Mr. Simons January 2, 1901.

Defendant's counsel said he had been advised and desired to recall young Diana.

Plaintiff's attorney objected, but the question was granted.

**WHAT IS HE WORTH?**

"What is your husband worth?" asked Robinson.

"He told me," was the reply, "that he had put \$17,000 into the saw company—that he had put in all the money he had. He had no savings and he had nothing else."

"What did he tell you about his salary?"

"Mr. Naylor was not coming home and that he was going to get a divorce."

"What did you say?"

"I said that if there was going to be a divorce I wanted my mother to have it."

"I cannot recall exactly what was said on that point."

"Is he still living?"

"He is still living."

"What kind of a home have you?"

"Oh, it is a fine place."

"What does it cost to maintain it?"

"He said it was \$10 a day. He got \$250 a month for doing nothing except acting as a manager."

"Did he ever say anything about holding stock in the company?"

"I cannot recall exactly what was said on that point."

"Is he still living?"

"He told me," was the reply, "that he had put \$17,000 into the saw company—that he had put in all the money he had. He had no savings and he had nothing else."

"What did he tell you about his salary?"

"Mr. Naylor was not coming home and that he was going to get a divorce."

"What did you say?"

"I said that if there was going to be a divorce I wanted my mother to have it."

"Is he still living?"

"Mr. Naylor is president of the General Electric Company."

"I believe so."

"Do you know Dr. Thomas Addison?"

"Dr. Addison is president of the General Electric Company."

"Who is he?"

"He is the wife of a Congregational minister in this city."

"Mrs. Addison is the wife of the Superintendent of the Utica Mine, is she not?"

**BETWEEN CATARRH AND CONSUMPTION STANDS****CATARRH Dr. Pierce's Golden Medical Discovery CONSUMPTION**

There are two things which foreigners note as being distinctively American: The nasal tone of voice and the habit of expectoration. Medical science attributes both to the almost universal prevalence of catarrh. Catarrh is an offensive disease at its best. At its worst it is deadly. It usually begins with frequent attacks of what is popularly termed cold in the head, involving the mucous membrane of the nose and the air passages of the head. As the disease progresses the irritating and poisonous catarrhal discharge running down over the delicate lining membrane of the throat produces a diseased condition similar to that in the head. When the disease is established in the throat the very act of breathing, the inhalation of air, carries the poison farther down the continuous mucous surfaces of the air passages to the bronchial tubes and from the bronchial tubes to the lungs, the result being bronchitis and catarrh of the lungs, with its deadly sequel—consumption.

As much of the poisonous discharge of catarrh finds its way to the stomach, that organ becomes involved, and the result is weak stomach, dyspepsia and loss of appetite.

From the stomach the poison is carried into the blood, involving the whole system in the consequences of this dire disease.

It is evident then that it takes more than local treatment to effect a perfect and permanent cure of catarrh. The stomach must be cured, the blood purified, the poison eradicated from the system before catarrh is perfectly cured.

Catarrh is cured at any stage by the use of Dr. Pierce's Golden Medical Discovery, because this great medicine goes to the root of the disease, cures the diseased stomach, purifies the blood and eradicates the poison from the system.

**SEVERE CATARRH ENTIRELY CURED.**

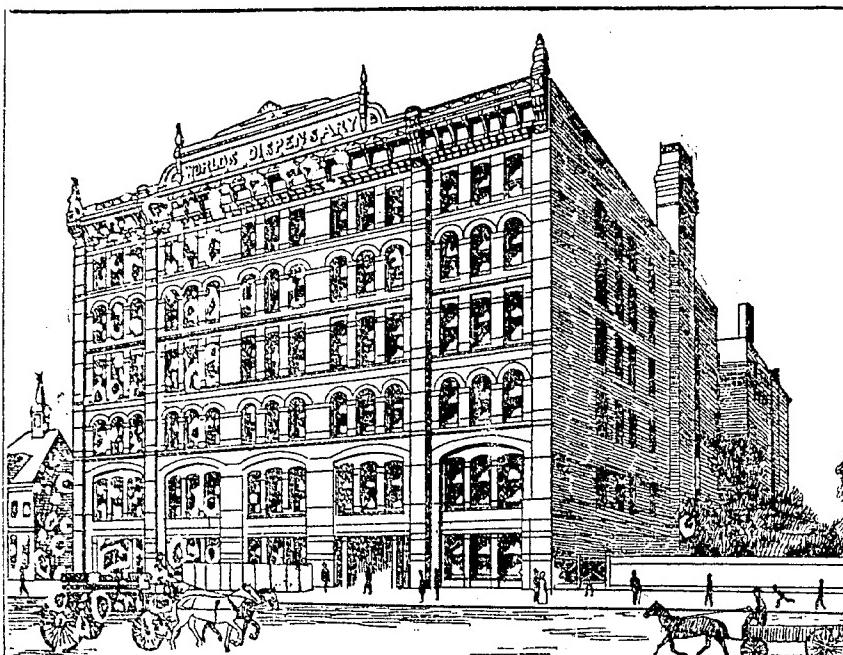

"I was greatly troubled with catarrh, which I was unable to get rid of for over six years," writes Mr. M. E. Curry, of 252 West 76th St., New York, N. Y. "I had severe headache three or four times a week, which almost made me crazy. I was unable to look up without having mucus drop in my throat, and always carried five or six handkerchiefs with me. Sitting by an open window was out of the question, as I could not bear the least bit of air to strike my head. I went to a prominent physician, who treated me for over a year with hardly any benefit, and to three others who did not help me at all. I chanced to pick up one of your pamphlets, read it carefully, and concluded to try your 'Golden Medical Discovery' and Sage's Catarrh Remedy. I purchased a bottle of each and used them. It did not take me long to find out that they were the medicines I should have had years before. I continued to use your preparations, and in a few months was entirely cured. I have recommended the same remedies to five or six of my friends who have been troubled with catarrh, and they have been cured also."

The cure of Mr. Curry by the use of Dr. Pierce's Golden Medical Discovery is a typical cure. There are thousands of similar cures on record. He himself cites the cure of five or six friends of the same disease by the use of the same medicine. And it is to be noted of these cures of catarrh that the disease is, in almost all cases, of long standing and had been treated by physicians with little or no benefit.

**CATARRH OF THE HEAD AND BRONCHITIS CURED.**

"I had been troubled with catarrh of the head and bronchitis for eight years; had severe cough and at times great difficulty in breathing," writes Mr. J. W. Howerton, of Bigflat, Hancock Co., Tenn. "A portion of the time my appetite was poor and part of the time I was unable to do anything. I had been treated by our best country physicians for several years but with little benefit. I had been reading about your medicine for several years but hadn't much faith in it. Last spring I concluded that I would try it and before I had taken one-third of a bottle of Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets' I began to mend, now I feel like a new man and can do as hard a day's work as any man."

There are a great many people who, like Mr. Howerton, have been "reading about Dr. Pierce's Golden Medical Discovery for years but hadn't much faith in it." In all these years they have been "doctoring" without success, neglecting the cure right within their reach. As a rule, such people only try the "Discovery" as a last resort when they have exhausted all other probable means of cure. But the trial of this medicine immediately brings faith in it. Sometimes it takes only a few doses to prove that a cure has begun. At other times where the disease has been long neglected it may take a bottle or two of the medicine before the beginning of the cure is realized. But, in any case, those who give "Golden Medical Discovery" a fair trial almost invariably testify to a perfect and permanent cure. It cures wherever a cure is possible, and that is in forty-nine cases out of every fifty.

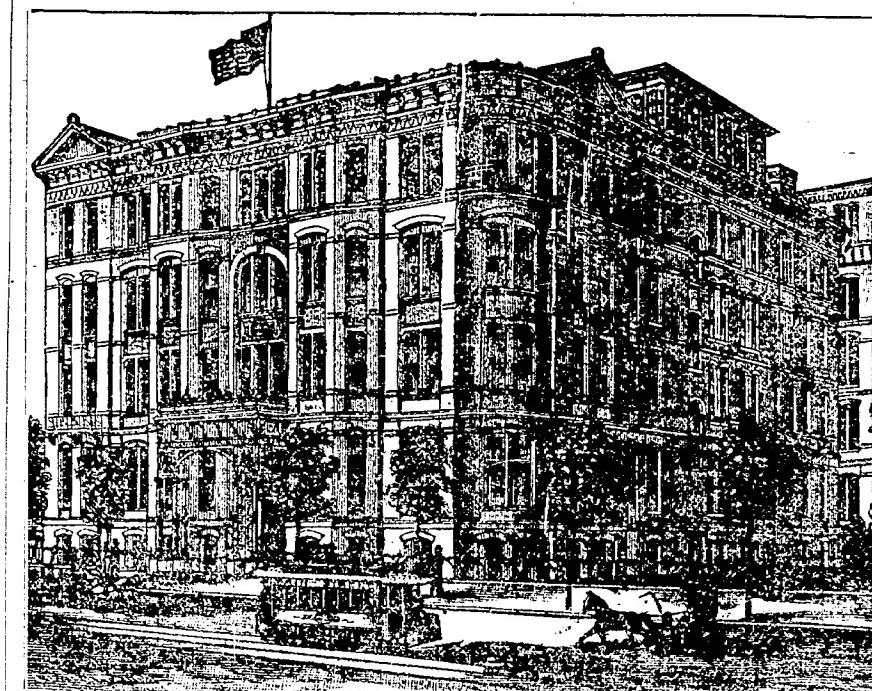

World's Dispensary, 660 to 670 Washington Street, Buffalo, N.Y.  
WHERE DR. PIERCE'S STANDARD FAMILY MEDICINES ARE MANUFACTURED.

**THE GREAT INSTITUTION**

**Presided Over by Dr. R. V. Pierce.**

During the Pan-American Exposition a great many visitors to Buffalo took the opportunity to visit the Invalids' Hotel and Surgical Institute and view the Laboratory of the World's Dispensary Medical Association. But to a great many people the Invalids' Hotel and Surgical Institute is only a well-known name. It will interest these people to know something in detail of the Institution itself and the medical, surgical and scientific work for which it has become famous. As the Invalids' Hotel it is a place where patients under treatment can be lodged and fed on a hotel basis, and avoid the gloomy surroundings and the minute restrictions which are an essential feature of the ordinary hospital. As a Surgical Institute it ranks with the best institutions in the land, of a similar character. Indeed, it is doubtful if there is any similar institution so thoroughly equipped with the best and most modern electrical and mechanical appliances for the treatment and cure of disease. Its X-ray apparatus, so valuable and infallible in certain forms of diagnosis, is the most improved form of this great invention. Its bacteriological department ranks with the best the country affords. Its department of urinary analysis is not only perfectly equipped, but presided over by physicians specially trained in this branch of medical science. In short, in every feature which goes to make a perfectly equipped institution, the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., stands second to none.

The Medical Staff of this great Institution, headed by Dr. R. V. Pierce as chief consulting physician, num-

Invalids' Hotel and Surgical Institute, 663 Main Street, Buffalo, N. Y.

Dr. Pierce's Golden Medical Discovery cures catarrh of the head, cures bronchitis and other throat diseases. Will it cure catarrh of the lungs? It can be confidently answered that "Golden Medical Discovery" will cure catarrh of the lungs, and the answer is given, not by Dr. Pierce, but by the multitude of men and women who have been cured.

**CURED OF CATARRH OF THE LUNGS.**

"I feel it my duty to tell you of the lasting benefits derived from the use of your 'Golden Medical Discovery,' 'Pleasant Pellets' and Dr. Sage's Catarrh Remedy," writes Mrs. M. E. Stewart, of Center, Chickasaw Nation, Ind. Ter. "Two years ago this month I had an attack of Grippe which left my throat and lungs in bad condition. The doctor said I had disease of the bronchial tubes, but confessed to my husband (unknown to me), that I had consumption in the first stage and could never be cured; but, thanks to God and Doctor Pierce to-day I feel well, and am better now than I have been for many years. I can do as much work now as any woman of my age, which is forty-seven. One of my neighbors advised me to get Dr. Pierce's Golden Medical Discovery, so I sent and got it, and when I was not satisfied with it alone, hardly believing that it would cure me, so I wrote to Dr. Pierce and gave him my symptoms. He replied that I had catarrh of the head, extending to my lungs, and told what would cure me. I took his advice—never neglected it for anything. I have taken seventeen bottles 'Golden Medical Discovery,' eight vials of Dr. Pierce's Pellets and ten packages of Dr. Sage's Catarrh Remedy. I was a skeleton. I have gained twenty-four pounds and am cured."

It is an axiom of medical science that the cure of consumption is only a question of nutrition. If you can begin to put flesh on the body there need be no further anxiety about the disease. Consumption is a wasting disease. Its prominent sign is emaciation. As Mrs. Stewart writes in the above letter—she was a skeleton before the use of "Golden Medical Discovery," and by its use she gained twenty-four pounds. That gain is the sure and infallible sign of her cure.

Dr. Pierce's Goldens Medical Dicoverys cures catarrh of the stomach and other diseases of the organs of digestion and nutrition. It enables the perfect digestion and assimilation of food which is the one and only source of physical strength.

**CURED OF DISEASE PRONOUNCED CONSUMPTION BY TWO DOCTORS.**

"I feel that I owe a debt of gratitude to a friend who saved my life by advising me to try your medicine," writes Mrs. Alice Cosby, of St. Ann's, Ont. "In September, 1898, I had an attack of heart trouble and began doctoring at once with our family physician. I grew weaker all the time, so my husband took me to an old family doctor. He told my friends that I had consumption. He helped my lungs for a while, but as I was getting weaker every day we went back to our family doctor, and I was under his care until March, then I was confined to my bed. Would have spells of perspiring five or six times a day, until my clothing was wet. Then the doctor told my husband he would like to have another physician called, as he had done all in his power, that there was nothing to build on. I called another doctor. He told my husband that consumption was my trouble, and my lungs, heart, liver, kidneys and bowels were in bad condition. I gave him a trial until March, 1900. At the same time stomach trouble and dropsy set in, and I was kept on broth and milk for three weeks. No pen can tell of my suffering. Sleep had forsaken me. We were advised by a brother-in-law who had been cured by Dr. Pierce's medicine some time ago to give it a trial. I began to write to you, but it was three days before I could finish my letter. I received a kind reply, advising a course of treatment which I began at once. After taking the first bottle of Dr. Pierce's Golden Medical Discovery (and also one of his "Favorite Prescription") I began to improve in every way, and by the time I had taken six bottles in all, three of each, I began to work and have worked ever since. My weight is ten pounds more than ever before. At the time I wrote to you my friends said a month was the longest I could be on earth."

The cures effected by the use of Dr. Pierce's Golden Medical Discovery are substantiated by the testimony of truthful and grateful witnesses. They are the men and women who support the churches of their community, whose word is good at the store they trade at, and who belong to the working, producing class who make the prosperity of the country. If your word is good can you doubt theirs? And if their word is not to be doubted; if these cures of catarrh of the head, throat and lungs by the use of "Golden Medical Discovery" are firmly established on the foundation of truth,

bers eighteen physicians, every man a specialist in the particular branch of medical science committed to his charge. The heart, the lungs, the liver, the kidneys and every other organ, whether of male or female, has its specialist, so that the utmost exactness of diagnosis of each disease is obtained in every case.

**DR. PIERCE'S GREAT FREE OFFER!**

In view of these facts, what can be said of Dr. Pierce's magnificent offer of a *free consultation by letter*? That offer extended to every sick man or woman in the land places at the disposal of the sick, without cost, a medical service which money could hardly buy. It puts at the free service of the sick the services of eighteen physicians, each man a specialist.

Thousands of men and women who have written to Dr. Pierce and received his advice, have, after their cure, written most grateful letters for the wonderful benefit received. Some of the letters published on this page, are cited as examples of this correspondence.

But the women especially appreciate the opportunity offered by Dr. Pierce's *free* consultation by letter, to escape the unpleasant questionings, the offensive examinations and the obnoxious local treatments considered necessary by many local physicians. And, above all, women appreciate the absolute privacy observed by Dr. Pierce in his correspondence; a privacy as sacred and as strict as that observed in daily personal consultations with sick women at the Invalids' Hotel and Surgical Institute.

Let any sick man or woman put these statements to the test by consulting Dr. Pierce by letter, *free*. Address Dr. R. V. PIERCE, Buffalo, N. Y.

**CUT OUT THIS COUPON**

And send it with one 2c stamp to the WORLD'S DISPENSARY MEDICAL ASSOCIATION, BUFFALO, N.Y., and you will receive a large book, containing 160 pages, entitled "Diseases of the Respiratory Organs," and treating of Catarrh, Bronchitis, Asthma, Consumption, etc.

## THE SACRAMENTO VALLEY.

It is an undeniable fact that the great agricultural region lying along the Sacramento River between Sacramento and Red Bluff, taken as a whole, has been gradually and slowly retrograding for twenty years past. There are isolated localities which show an advance, but they are like oases in the desert—green spots which bring out in darker relief the prevailing aspect. Wealth, population, and stock all show a melancholy decrease. Decay is visible in the fences and farm buildings, and the acreage under tillage is falling off.

Yet the Sacramento Valley is one of the richest agricultural sections in the world. The soil is deep, fertile and easily tilled. It produces grains and fruits in bounteous profusion, and it has the most abundant and certain rainfall of any section of the State except the Bay and upper Coast counties. The beginning of agricultural development in the interior was seen there. Twenty years ago it was rich, prosperous, growing, full of fat cattle and substantial farmers.

But the present has a different story to tell. The towns are growing sleepier and the farms more deserted. The barns are shabby and unpainted, the roads are generally bad, and the quality of the farm stock is distinctly inferior to what it was two decades ago. There is a notable absence of wealthy land owners and big prosperous grain growers who were formerly numerous in Yolo, Yuba, Sutter, Colusa, Butte and Tehama counties. The few successful large farmers there now are making specialties of either fruit or stock. Mortgages cover most of the fields like a pall.

What is the cause of it all? The land is still fertile, the rain still falls and the seasons still follow each other in fruitful procession. Why have progress and population turned away from this region, leaving it to droop and wither like the plants of an unwatered field?

The initial cause was land monopoly. This was supplemented by the system of grain cartels in great ranches. For many years the great landowners did not consider small farmers desirable and they were averse to selling land in small tracts. As long as wheat was high the tendency toward land monopoly increased. The labor employed had no fixed habitation and never became attached to the soil. Men were employed twice a year, at seed time and harvest, and for the remainder of the time were nomads. The features that make rural life attractive were lacking. Except in the towns, there was no society to speak of; the roads were not improved, and churches and schools did not bring their civilizing influences close to the homes of the humbler class. The families of the rich landowners went to the mountains or the seashore during the heated term, and sent their children away to be educated.

Naturally this was no place for the immigrant from the East. He wanted to foregather with his kind where there were roads, schools, churches and society to relieve the monotony of life on the farm, and if he could not find them he tried to find a place where these could be built up without hampering influences. Among the big ranches of the north he would be lost, powerless and chained to a system at war with his interests and instincts, so he set his face to other localities where conditions were in a sense harder, but where he was at liberty to construct, improve and develop communities along his lines. He went to Southern California and the upper San Joaquin Valley. He settled in colonies on small tracts, planted orchards, dug irrigating ditches, and to live in a prosperous garden while the great ranches of the Sacramento Valley are rusting away and passing under the hammer. It no longer pays to raise grain on high priced land, and the big wheat farmers never caught the breath of change till they were within the grip of financial difficulty, unable to extricate themselves or to bring back the tide of immigration they had turned from their doors.

But now the conditions are changed. The people of the northern counties are waking up to the necessity of doing something to develop their incomparable land holdings and put them on the market on inviting terms to immigrants, and to make the conditions applicable to the wants of modern society. This rich land cannot longer await settlement with the people organizing to advertise its resources and advantages for the home-seeker. The soil beckons to the tiller. The people of the upper valley counties can say with Napoleon at Marengo, "We have lost the battle, but there is time enough to win another." With the proper spirit of co-operation and energy the people of the Sacramento Valley will soon have home seekers of a desirable class swarming among them. Experience is a stern teacher, but its lessons strike deep, and at last impresses as nothing else will.

E. L. COLNON.

The death of E. L. Colnon will cause general regret among California newspaper men. He was a man of strong likes and dislikes, but he was genial and whole-hearted in whatever he espoused. He was a writer of force and perspicacity and possessed

## INSURED.

**W**OU insure your house against fire. You know what people would say if it burned down without insurance. They would say you were wanting in business sagacity, that you should have provided for this. Now leave house insurance and consider clothing insurance. Here the danger is even greater—not from fire, but from the chemicals and strong soaps used in the laundry. Wise women insure their finer, more delicate and perishable things against this risk, and the premium they pay is the trifling cost of Ivory Soap. That guarantees protection.

IVORY SOAP—IT FLOATS.

## MERCHANTS WILL FIGHT STAMPS

### WILL KEEP UP A CAMPAIGN AGAINST ANY FAKE SCHEMES.

At the meeting of the Merchants' Exchange last night the following directors were present: Arper, Walker, Sinclair, Weilby, Schlueter, Muhr, Coward, Fairwell, Champlin, Williams, Cushing and Jonas.

The meeting was called to order by Fred Sinclair in the absence of President Sohos.

Bills to the amount of \$101.25 were ordered paid.

PURE FOOD.

A letter was read from the National Association of Retail Grocers, requesting the endorsement by the Exchange of the proposed pure food bill now before Congress.

Chairman Muhr of the Committee of the Exchange on Pure Food reported endorsing the bill in question. On motion of Director Muhr, a resolution endorsing the bill in question was unanimously adopted.

HOME FIRE EXTINGUISHER.

Director Schlueter of the Committee appointed to visit the Kirtley Fire Extinguisher Factory, said that the proprietor had explained the workings of the machine and that the committee was entirely satisfied with the showing made. Mr. Kirtley had testimonials from the Fire and Police Commission, the Board of Education and other organizations, all of which were encouraging and satisfactory. He hoped the enterprise would be encouraged with the view of inducing other manufacturers to settle in this city.

INTER-STATE COMMERCE.

Director Walker of the Committee appointed to the Inter-State Commerce Act, said that the bill had been introduced into the House of Representatives in accordance with your request. I trust it will meet the approval of your organization and I will be glad to be advised of any action taken in relation to it.

E. R. BACON, Sec'y.

The communication was read from Secretary Walker regarding the inter-state commerce act:

## WHAT'S YOUR FACE WORTH?

Sometimes a fortune, but never, if you have a sallow complexion, a jaundiced look, moth patches and blotches on the skin—all signs of a feverish, bare, New Life. Pile on olive, Citrus Skin, Rose Cheeks, Rich Complexion. Only 25 cents at Osgood Bros.' drug store, Seventh and Broadway.

## AMUSEMENTS.

An innovation in theatrical affairs is scheduled for us in the presentation of the following entertainment to the inter-state commerce act:

"I am in receipt of your favor of the 13th inst., and have the pleasure to forward to you two copies of the bill to amend the inter-state commerce act pertaining to the regulation of the movement of persons in accordance with your request. I trust it will meet the approval of your organization and I will be glad to be advised of any action taken in relation to it."

I note your remark that "the Pacific Coast is a great field for discrimination." From letters I am daily receiving, this complaint is very general in all parts of the country. It is to be hoped that by the action of the congressional organizations of the country, we may secure legislation that will afford substantial relief. Very truly,

JOSEPH DUNMEEY, Frank Blunt, Will R. Walling, Maurice Stewart, Charles Edder, O. W. Howe, Frank Howe, Lytton Atwood, Pauline Maitland, Effie Bond and Myrtle Silsby all scored a success. The play will be repeated all this week.

## PEEK'S BROADWAY.

The management contends that by presenting the two plays with one company the continuity of the story is kept intact, and the interest caused by two actors differently constituted, assaying the same character, thus avoided.

Both productions will be scenically complete, while the costumes, accessories, music, etc., will be superior to any former effort.

## FRESH AND STRONG.

Food That Sends One Along.

"I found a food at last that I could work on and that would keep me fresh and strong. I have been a school teacher for eleven years, and every year toward the last have felt more or less worn out, and have been bothered particularly with my stomach and serious constipation.

"Last year I used Grape-Nuts regularly at both morning and evening meals and the result was really wonderful. I have been entirely cured of the troubles spoken of, and don't know what it is to take a dose of physic any more. The old nervousness and sleeplessness have gone. No more do I lie awake nights until my brain is in a whirl. Now I sleep all night long like a healthy child."

"I was the only teacher out of fourteen, in our public school, who did not miss a day on account of sickness during the last season. I have been able to do more hard studying than ever before, and took part in the teachers' state reading work, completed the course and passed a successful examination at the last institute."

"Grape-Nuts in my case has proved the truth of the assertion that it is a brain and nerve builder. I would especially recommend it for tired, overworked school teachers, or any other hard workers. Name given by Postmaster General of the Michigan City."

"It is far wiser to build health and strength naturally with food than to crutch along on some kind of medicine and let the disease finally do its work."

COUNT TOLSTOI'S HEALTH.

VALTA, Crimea, Feb. 26.—All immediate danger of death of Count Tolstoi is passed.

This signature is on every box of the genuine  
Laxative Bromo-Quinine Tablets  
the remedy that cures a cold in one day.

## DIVORCE QUESTION IS DISCUSSED IN CHURCH.

Attorney J. B. Richardson Points Out the Defects in the Law and Makes Suggestions to Correct Existing Evils.

The Men's League of the First Presbyterian Church held an interesting and instructive meeting in the parlor of the church last night when the subject of divorce was discussed. Attorney J. B. Richardson read the principal paper of the evening on "Divorce Laws." The subject was discussed by Rev. E. E. Baker, E. Edward Collins, ex-Mayor A. C. Henry and James P. Taylor.

Mr. Richardson's interesting paper is as follows:

## ROMAN CATHOLIC CHURCH.

"The Roman Catholic Church today is at it has always been the consistent enemy of divorce. The influence of the Protestant Church—or churches—is one of indecision because it is a negative influence. If we believe that the security and morality of the state depend upon the maintenance and sacredness of the family relation we must admit that the vigor and unwavering consistency with which the Catholic Church has enforced its rule forbidding divorce offers a strong contrast to that obtaining in our various communions.

## THOUSANDS OF DIVORCES.

"From 1867 to 1900 there were 2,500 divorces in Illinois. The number of divorces in Connecticut increased from 1,200 in 1864 to 1,400 in 1884.

"The Catholic Church believes that marriage is a sacrament. When Luther repudiated the Church of Rome, his earnestness led him to swing clear of all that she had declared fundamental. Marriage henceforth should not be considered a sacrament.

"The Christian Church from Luther's time till now, although it has given marriage its religious sanction, and has solemnized it, considers it essentially a civil contract, subject only to the laws of the State where the parties live to it may chance to reside. This view so widely prevalent and is one of the ruling sources of the legislation that for the past fifty years has been put on the statute books of so many of our States.

"The marriage relation is the normal condition of mankind. Whoever of either sex, lives out of that relation is living out of harmony with nature's laws, and is hostile to the best order or society. Nature has ordained that man is to rear and train a family; that the family is the unit of society; because from it flow directly all of the other domestic relations for which the state exists."

## ALL HOSTILE TO DIVORCE.

"The object of civilization is the perpetuation and improvement of the race, and that can only be done in established families, reared universities founded, governments maintained. For this reason if a government is not stable and sure and permanent, it is useless and bad upon which to base a family for which its members' family life is not stable and permanent. If we say that the tone of public life is low, we mean that the highest function of man and woman is to rear and train a family; that the family is the unit of society; because from it flow directly all of the other domestic relations for which the state exists."

## DESERTION AND INFIDELITY.

"Originally, in most of the States the only cause of divorce recognized were adultery and desertion. One cause after another has been added, until now the ways that lead out of wedlock are numerous and broad, and in some cases there is no limit. Many of the statutes allowed any decision of the Supreme Court to grant a full divorce whenever, in the exercise of a sound discretion, he deems it reasonable and proper, conducive to domestic harmony and consonance with the peace and safety of the Commonwealth. Gavello, in his 'Digest of the Statutes of the Commonwealth of Massachusetts,' grants divorces for certain specified causes, but permitted the courts at their discretion to dissolve the relation if any other just cause of divorce exists. This is leading to a general and features of the law of divorce as it exists on the statute books of our various States today. One of the worst features is the utter lack of uniformity in these laws, even between the states themselves, which allows no distinction of adultery in one and yet there is a variety in this. In some States, Michigan, for example, divorce must be asked for on this ground in five years after knowledge of the fact; in other States in one or two years. In some other States the right to divorce is denied, while in others it is granted. In California, divorce is unknown. In New York, divorce is granted on the ground of adultery or desertion, and yet there is a provision that if a married man cohabit with another man, married or single; in others, it is not adultery for a married man to cohabit with an unmarried woman. Lewd and lascivious behavior is not a cause of divorce in some States, but it is in others. In certain States the right to divorce is denied, while in others it is granted. In New York, divorce is granted on the ground of adultery or desertion, and yet there is a provision that if a married man cohabit with another man, married or single; in others, it is not adultery for a married man to cohabit with an unmarried woman. Lewd and lascivious behavior is not a cause of divorce in some States, but it is in others. In certain States the right to divorce is denied, while in others it is granted. In New York, divorce is granted on the ground of adultery or desertion, and yet there is a provision that if a married man cohabit with another man, married or single; in others, it is not adultery for a married man to cohabit with an unmarried woman. **ARE YOU DEAF?**

**ANY HEAD NOISES?**

ALL CASES OF  
**DEAFNESS OR HARD HEARING**  
ARE NOW CURABLE

by our new invention. Only those born deaf are incurable.  
**HEAD NOISES CEASE IMMEDIATELY**

F. A. Werman, of Baltimore, Says:

Gentlemen: Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion. I took first steps in this career when I began to sing, and this resulted in getting worse, until I could hardly hear in this ear.

I underwent treatment for deafness for three months, without any success, consulted a number of physicians, among others the most prominent specialist of this city, who told me that only an operation could help, and even that only temporarily, that the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had it only a few days according to your directions, the noise ceased, and today, after five weeks, my hearing has been entirely restored. I thank you heartily and begin to regain my hearing again.

Very truly yours,

F. A. Werman, 750 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation.

Examination and **YOU CAN CURE YOURSELF AT HOME** at nominal cost.

INTERNATIONAL AURAL CLINIC 506 LA SALLE AVE., CHICAGO, ILL.

## REGISTRATION IN THE COUNTY.

DEPUTY CLERKS ARE BUSY GETTING NAMES IN THE COUNTRY.

The work of registration, by way of preparation for the coming election in the county, is in progress under the direction of County Clerk Frank Jordan, and he is assisted by his full and capable force of deputies.

Work is done in the office of the Clerk as also in various parts of the county to which the deputies, from time to time, make visits for the purpose of saving country residents the inconvenience and expense of a trip to this city for the purpose of registration.

It is estimated that there are now about 200,000 voters registered, and the number is being increased at the rate of about 50 every day.

The deputy clerks recently paid a visit to Livermore, where 400 names were secured. A trip was also taken to Pleasanton where 200 registrations were made.

Tonight the deputies will go to San Leandro, and on Saturday night to Hayward, where there will be another large number of names secured.

Next week Alameda and Berkeley will be visited, and it is expected that there will be fully 200 more registered.

During the month of March the work will be active work in this line kept up throughout the county.

The registration, however, did not get completed until about August, but it is the desire of the clerks to get through with it as soon as possible so as to have sufficient time to make needed corrections.

tions and alterations without the unpleasantness of a rush toward the close.

The deputies of the County Clerk's office have arranged for a schedule of visits to country towns to register voters, as follows:

Hayward, March 1; Alameda, March 5;

Berkeley, March 8; Niles, March 11; Pleasanton, San Jose, March 13; Castroville, March 16; Fremont, March 18; Alameda, March 21; Sunol, March 22; Mount Eden, March 25; San Lorenzo, March 27.

Job Couldn't Have Stood It

If he'd had Itching Piles, they're terribly annoying, but Bucklin's Arnica Salve will cure the worst case of piles on earth. It has cured thousands. For Injuries, Pains or Bodily Eruptions it's the best salve in the world. Price 2c a box. Cure guaranteed. Sold by Quack Bros., druggists, Seventh and Broadway.

Find That Death Was Accidental

A verdict of death due to accident was rendered by the Coroner's jury last night in the case of John B. Nixon, assistant engineer of the Pennsylvania R.R. Co., who was crushed to death while making an inspection of the paddle wheel of that vessel Sunday afternoon.

Health Board Will Consider Smallpox

A special meeting of the Board of Health will be held this evening to take action about the recently developed cases of smallpox. The matter of vaccination of school children will be considered.

Her Husband Ran Away.

Mrs. Elsie Drysdale, who is suing her husband, John Drysdale, for divorce, filed an affidavit today as a basis for leave to advertise a summons for him. She says that on August 15, 1895, five months after their wedding, he lost his position in Murphy, Grant & Co.'s, through negligence. He has since been working here, later he sent him a ticket with which to come home. He sold the ticket, and the next she heard of him he was in Lodi, where he had said he proposed to stay forever. She has not seen him since.

Knight vs. Carter was yesterday judged insane and committed to Stockton by Judge Molvin.

## MRS. THEO. FULLER,

SOCIAL SCIENCE CLUB PRESIDENT.

A FAMILY doctor who has attended father and mother in sickness and given them advice as they grew up to maidenhood and manhood has a very close relation to the family. When he comes in half the suffering seems over, half the danger past. He comes at all hours of the night and day and after years of such service confidence in him is almost unbounded. But in time the mother begins to ail and the daughters growing up develop the troubles and weaknesses of womanhood. Here the physician very often makes his mistake. The mother may be going through the change of life, but the physician calls it a general running down of the system or thinning blood. He frequently treats bearing-down pains as kidney trouble and says deranged menses are merely temporary troubles that will wear off.

In treating every case from whooping cough to diphtheria and typhoid fever the average physician has no time to specialize any one class of diseases—he has no opportunity to make a study of the particular maladies of women. And he has another disadvantage in that thousands of modest women will not tell the details of this kind of sickness to a doctor. But Wine of Cardui is a family physician, a specialist of female diseases that has never been discredited as a regulator of menstrual disorders. It seldom fails to effect a perfect cure and when cases are absolutely incurable, it never fails to benefit the patient.

Mrs. Theodore Fuller, of Neenah, Wis., is one of the thousands of women who have cause to praise Wine of Cardui. She is one of the prominent women of her town and her letter cannot fail to attract the attention of thousands of sufferers. As Presi-

## MRS. WRIGHT IS AFTER DIVORCE

DECLARER THAT HER HUSBAND BEAT HER IN A CRUEL MANNER.

Chester F. Wright, an importer of corsets, with business premises at 539 Market street and 10 Geary street, in San Francisco, and at 433 Third Street in this city, has been enjoined by Judge Carroll Cook from disposing of any of his property pending divorce proceedings instituted by Mrs. Tahoe D. Wright.

Mrs. Wright has sued her husband for divorce on the ground of extreme cruelty. She declares that for years he has made life so unbearable for her that she can no longer live with him. Following are some of the allegations of the complaint:

"...since their said marriage defendant has trespassed in a cruel and brutal manner, and in particular, as follows, to wit: That within two years past plaintiff, without any cause or provocation thereto, or at all struck plaintiff several blows on the face with his fist, with great force and violence, causing her nose to bleed and blackening one of her eyes; and at the same time used vile and abusive language to her and applied vulgar names and epithets to her, as follows: 'You dirty old Dutch family,' 'You—bar—' ..."

"...that upon other occasions during said last mentioned period, defendant struck plaintiff with his fist, and in some cases caused her to fall and at the same and frequently at other times defendant has addressed to plaintiff any and applied to her said and similar abusive, vile and vulgar names and epithets, all wholly without any provocation on the part of plaintiff and under another occasion within said period defendant spat in the face of plaintiff."

Mrs. Wright says that her husband is worth \$10,000. The stock of goods at Chester F. Wright's store at 539 Market street is valued in the complaint at \$25,000; the stock at 10 Geary street at \$6,000 and that in the Oakland store at \$5,000. Some real estate holdings in this city are valued at \$10,000, and are subject to outstanding accounts worth \$40,000. Mrs. Wright estimates her husband's income at \$1,500 a month, and she asks the court to grant her, in addition to a decree of divorce, an order for alimony of \$200 monthly.

Wine of Cardui and Mrs. Wright were married April 14, 1887. There is one child, a son, Otto, now 14 years of age, of whom Mrs. Wright demands the custody.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used for children's teething. It soothes the child, softens the gums, allays all pain, relieves wind colic and is the best remedy for diarrhoea. Twenty-five cents.

They Want to Divide The Miller Estate.

The partition suit of Beasley vs. Mrs. Lillian M. McPike, Mrs. Mary H. Miller and Mrs. Nellie E. Lutz, for the purpose of dividing the joint holdings of these women as heirs of the late W. E. Miller, came up this morning before Judge Hall. Mr. Beasley was represented by Attorney Broadman. The defendants were represented by W. H. McPike, who is himself indirectly interested in the disposition of the property. The Oakland Bank of Savings was represented by Attorney McPike.

Attorney Broadman said that there was no contest between the parties as to the special holdings or rights of the parties interested.

Attorney McPike said that the property involved consisted of three parcels, one of which is a lot 100x50 feet, with a residence on Webster street. Another is a lot 100x50 feet with the Bennet block on the northwest corner of Tenth and Broadway. The third is on the East side of Franklin near Fourteenth street. It is on the property now owned by Mr. and Mrs. Lillian McPike and each a five-twelfth interest.

In the same property, Mary H. Miller has a two-thirds interest. Each of these women has a two-thirds interest in the plaintiff a one-third interest in the other two parcels of property.

Mr. McPike said it was the desire of the parties interested to have the partition made, if the court could so allow it, with out a sale of the property. The interests of Mrs. McPike and Miss Miller in the Broadway property were subject to a mortgage of the Oakland Bank of Savings, \$40,000.

John E. Lutz, husband of the guardian of Mary H. Miller, who is incompetent, took the stand and testified that he thought the partition could be made without sale.

The court then appointed W. H. Knight, E. A. Heron and E. P. Vandercrook as referees, to make the partition.

## ALAMEDA IS IN DARKNESS

SEVERAL DAYS MUST ELAPSE BEFORE THE BREAK CAN BE REPAIRED.

JOINT BALL.

ALAMEDA, Feb. 26.—Last night the streets of Alameda were without lights, and such may be the case for several weeks, owing to the accident at the light plant.

It was discovered yesterday that the cross head which broke on the low pressure cylinder of the big engine was due to a defect in the casting which, instead of being cast steel, was cast iron.

The commercial trade was supplied with light as far as the large cylinder on its high pressure cylinder. The new engine was also used, but as it is not yet in perfect shape, it was not worked very hard.

The damage to the engine and plant will amount to a large sum.

The new piece of machinery will arrive from the East in about two weeks.

KIERMAN CASE.

ALAMEDA, Feb. 26.—The work of securing a jury to try the Kierman case has met with failure. Yesterday twenty-two men were examined, but not one was accepted.

Each man thought it necessary to have an opinion, and as a consequence the trial was adjourned.

Judge Morris issued a venire for fifty jurors to be on hand next Wednesday, at which time another attempt will be made to secure a jury.

JOINT BALL.

ALAMEDA, Feb. 26.—On the evening of March 1, the trustees will give a joint ball. Large preparations are being made for the affair, which will be a great success.

Court Pridie of Alameda No. 19, F. of A. and Hamlet Circle No. 64, C. of F. of A. are the two lodges that will conduct the ball.

NEWS NOTES.

ALAMEDA, Feb. 26.—Tonight Prof. C. P. Neilson will deliver an illustrated lecture on "Greek Art."

The address will be given at the teacher's assembly room in the City Hall, under the auspices of the Teachers' Art Association.

ALAMEDA, Feb. 26.—The heavy storm of yesterday created havoc with the electric and telephone wires of this city. A gang of telephonists are busy today repairing the damage. Fully 100 telephones were disconnected by the fury of the wind.

ALAMEDA, Feb. 26.—Yesterday Rev. Dr. McElroy delivered a free lecture at the First Methodist Church on the subject being "The Sea and the Vision." The lecture was given under the auspices of the Young People's Christian Union.

CLAIM LEASE INTEREST IN MENDENHALL SPRINGS.

Another answer has been filed in the involved litigation affecting Menendhall Springs near Livermore. It is that of William M. Menendhall, Sr., W. M. Coward and Mary L. Coward, in which they deny the complaint of William M. Menendhall, Mary, A. Menendhall and Walter L. Sedgley, who seek to regain possession of the premises in question.

The answer denies that the plaintiffs have any interest in the property in question and asserts that the defendants claim a household interest in the property under a lease executed by the plaintiffs for a term of nine years, beginning October 1, 1900.

JUDGE NOYES REMOVED.

WASHINGTON, Feb. 26.—Acting on the report of Attorney-General Knox, the President has issued an order dismissing Justice Arthur H. Noyes from the public service. This removal is the result of the scandals at Nome growing out of the re-election cases. It is stated that strong political influences were brought to bear to prevent the action he took, but that will not be denied.

NEW ENGLAND DINNER.

A New England dinner will be served at the Glenwood dining rooms tomorrow under the auspices of the Ladies' Aid Society of the First Christian Church. The dinner will be served between the hours of 11 A. M. and 2 P. M. The Glenwood dining rooms are located at the corner of Fourteenth and Washington streets.

POLICE COURT.

Police Court, February 26.—Frank Dickinson, John Swanson, drunk, Judgment suspended; August Bey, Isaac Wards, Alexander Creely, same, \$1 or 2 days; John Gallagher, same, \$1 or 2 days; Gus Thaler, battery, February 27; plead; James Green, disturbing the peace, \$1 or 5 days; Tom Brumley, instigating a riot, \$100; George S. Vandercrook, J. S. Sarsfield, misbehavior, March 26; Jury, Ed Carroll, burglary, on trial.

POLICE COMMISSION.

At the meeting of the Police and Fire Commissioners this morning Chief of Police Hodges asked to be allowed to remove four bicycles belonging to the department at a cost of \$20.

Victor H. Peiffer applied for a position as driver of the patrol wagon.

John G. Lefever, burglar, on trial.

POLICE COURT.

At the meeting of the Police and Fire Commissioners this morning Chief of Police Hodges asked to be allowed to remove four
